

**REMARKS**

Applicants acknowledge with appreciation the allowance of this application. The amendments to the specification set forth herein merely correct minor typographical errors that appeared in the application when the originally filed application from 1995 was scanned for word processing. All corrections are of a minor nature and correct misspellings in words and inappropriate spacings or obvious errors in chemical formulas. The change to paragraph 0035 is supported in the prior applications, e.g., see, page 7 of U.S. Patent Application No. 08/769,806, now U.S. Patent No. 5,874,500 (col. 4, lines 35-36). No new matter has been added to the application with the changes made herein.

The Examiner may direct any questions regarding this application to the undersigned attorney at 650-330-4913 or [canaan@reedpatent.com](mailto:canaan@reedpatent.com).

Respectfully submitted,
